PARTNERSHIP

As a global player our quality products are available in over 30 countries. We are continuously expanding our wide product range. We value our partners and we protect their durable investment in our quality brand Synmar.

Our team consists of highly motivated and skilled specialist and we are constantly looking for improvement. Our team is diverse and are originating as well as operating from different countries, in this way we can act local.

As an international brand, we support our partners both offline and online. Via the Synmar brand portal all our partners have access to the various marketing and sales resources we have made available to them. Here they can download product images, product

catalogues and the Synmar brand book. At Synmar, we believe in working closely with our partners and customers to build a strong relationship that lasts and provides mutual satisfaction.

Are you interested in a partnership? Feel free to send an email to info@synmar.nl.

SYNMAR

23-V1.0

KEEPS YOU MOVING

ABOUT SYNMAR

Synmar is a young and dynamic company specialized in lubricants and technical fluids. We are an international brand active in different countries with a wide range of high-quality products.

OUR PRODUCT

Synmar provides high-quality products that perfectly meet our customers' needs and expectations. Synmar premium lubricating oils are produced in The Netherlands. Something to be proud of, therefore, this is also mentioned on our packaging "Made in Holland".

QUALITY

Synmar applies ATIEL's Code of Practice for the development of engine lubricants that meet ACEA's performance requirements. ATIEL's Code of Practice is a key element of the European Engine Lubricants Quality Management System (EELQMS) which implies a commitment to market, develop and produce those engine lubricants for which ACEA Oil Sequences compliance will be claimed.

With more than two decades of experience in the lubricant industry, our team is always able to advise and supply you with the high-quality product you are looking for! Please feel free to contact us for more information.

MISSION

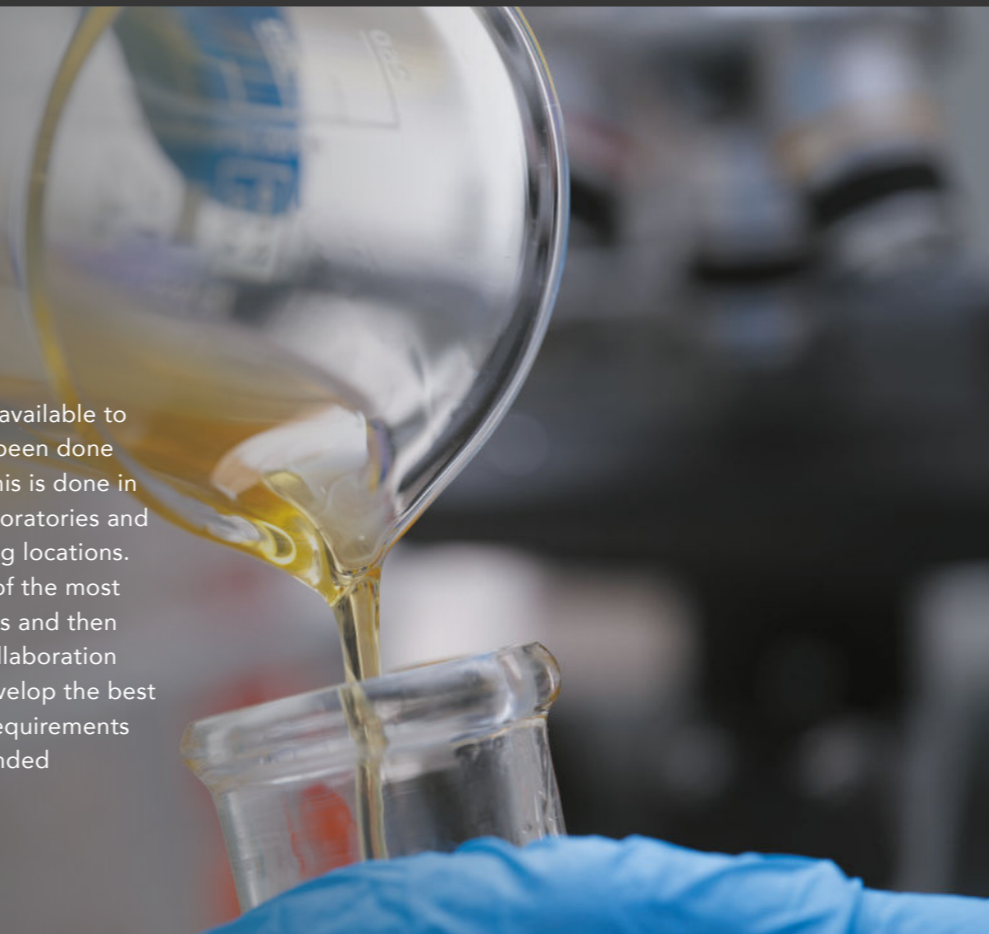

Excellent service is the key to success. We pledge to offer this to our customers in every way we possibly can. It is our mission to keep expanding our product range in a customer-oriented way and continue to grow our worldwide product availability.

VISION

Synmar will strengthen its position in the global lubricant market. We assist our customers by offering a broad selection of high-quality products. Every country is unique. The Synmar team will analyse the specific needs of different countries to allow us to adequately serve our customers. We provide our customers with the best possible solutions worldwide.

RESEARCH + LAB

Before any Synmar product becomes available to our customers, extensive testing has been done to ensure the best possible quality. This is done in close collaboration with European laboratories and various engineering and manufacturing locations. Synmar has made a careful selection of the most effective additives and oil components and then put them to the test. Only in close collaboration with our customers are we able to develop the best possible oil. The products meet the requirements of modern engines and are recommended by many OEMs.

IDENTIFICATION

FULLY SYNTHETIC

SYNTHETIC

MINERAL

Synmar offers a wide variety of product options that are compatible with the most common vehicle models and machines in Fully Synthetic, Synthetic and Mineral formulations. Due to the unique and distinctive colour schemes, it is easy to determine which type of formulation is required. Making the right choice, has never been so easy!

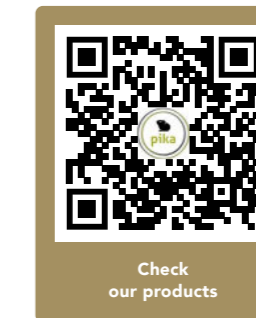

DIGITAL HAZARD INFORMATION

The PIKA platform provides clear and easy access to the SDSs and hazard information for the products you purchase from us.

The PIKA app, for example, contains the latest safety data sheets for our products, including a simple description of the hazards of a product (if any) and the instructions for safe use.

FREE USE OF PIKA VIA SYNMAR

The PIKA app can also be used by your employees who work with the (chemical) products supplied by us. You will always have the necessary and latest hazard information on Synmar products at hand digitally.

We offer, all Synmar customers, the opportunity to download and use the PIKA app completely free of charge for all Synmar products.

PRODUCT ADVISOR

Finding the right engine oil can be a difficult job. Synmar has found a solution for this!

With our Synmar product recommendation software you can easily find the right engine oil for your vehicle. All you have to do is enter your license plate number. You will also receive advice on other fluids for your vehicle, such as transmission oils, coolants and brake fluids.

It is also possible to search by brand, model and type. By doing so you get the same complete product advise for your vehicle.
